## Iobit Internet Booster Settings

The screenshot shows the Win Fix software interface. At the top, it says "Win Fix" and "Win Fix analyzes your Windows operation system and helps you fix problems." Below this are four tabs: "General Fix", "Advanced Fix", "Fix Internet Explorer", and "Fix Media Player". A warning message states: "Do not click the 'Fix' button unless your computer has the following problems." The main area is divided into a left sidebar and a right content area. The sidebar has categories: Desktop, System, IE, Media Player, Security (highlighted), and Additional. The content area lists three issues with "Fix" buttons:

Category	Problem Description	Action
System	Enable Task Manager. When you try to open or run Task Manager (Taskmgr.exe), the following error may occur: "Task Manager has been disabled by your administrator".	Fix
Media Player	Enable Command Prompt. When you run cmd.exe or batch files, you may get message "The command prompt has been disabled by your administrator".	Fix
Additional	Enable Registry Editor. An error message is displayed when you start the Registry Editor (regedit.exe) "Registry Editing has been disabled by your administrator".	Fix
